PROJECTS

Ecommerce website — Using Html,Css,Javascript

Developed an ecommerce website using HTML, CSS, and JavaScript, prioritizing user-friendly navigation and elegant design. Integrated JavaScript for interactive elements, enhancing user engagement through responsive features. Resulted in a polished, visually appealing online shopping experience.

Html:Created the structure for webpages

Css :Designed and styled web pages

Javascript: Functionality for a navbar toggle and a header/go top button Activation on page scroll

Todo list — Using React.js

Developed a dynamic Todo List application using React, featuring interactive task management and real-time updates. Implemented responsive design principles and utilized state management to ensure seamless user experience across devices.

React: Implemented a responsive Todo List application with dynamic task management features

CSS:Styled and designed the user interface for visually appealing task lists and intuitive user experience.

Javascript:Developed functionalities such as task addition, deletion, and completion tracking, ensuring smooth navigation and efficient task management

EDUCATION

Sri Adi Chunchanagiri, Theni — BA English

July 2020 - May 2023

CERTIFICATION

Udemy-Web development bootcamp

Completed 40+ hours course successfully and learnt concepts

Of Html, Css, Javascript, React js

I regularly engage in coding platforms such as Leetcode, HcakerRank

SKILLS

HTML

Css

Javascript

React.js

Github

Excel

AWARDS

Gold medal won in archery competition

Bronze medal Also won bronze medal in archery

Runnerup won in table tennis inter school competition

LANGUAGES

English

Tamil
