PROJECTS

Code Editor

📅 08/2023 - 08/2023

Code editor is an optimized text editor that focuses on coding.

• A code editor that is specialized for writing software. A source code editor may be a stand-alone program or part of an integrated development environment (IDE). They make writing and reading the source code easier by differentiating the elements and routines so programmers can more easily look at their code.

Personal Portfolio

📅 08/2023 - 08/2023

Personal Portfolio which includes about , services , works , contact.

• A personal website is an engaging way to share personality, skills, interests and expertise. Many professionals also create them because some interviewers ask for an online portfolio that shows your work.Personal Portfolio which incudes about , services , works , contact.
